1. System Overview & Introduction

The Airport Property Management System is a web based application designed to manage commercial shops, physical properties and rental contracts inside an airport terminal. International airports are busy hubs that host many luxury, retail and food outlets, commonly known as duty-free shops.

Managing all these businesses, tracking their rent, and monitoring their sales performance manually using paper files or standard spreadsheet tools like Microsoft Excel is extremely difficult. Manual management often leads to human errors, data loss, calculation mistakes and high time consumption. This system solves those operational challenges by bringing all administrative tasks into a single, safe and centralized digital platform.

2. System Modules & Opérations Guide

2.1 User Log in Page

A screenshot of a 'User Login' form. The form is centered on a dark background. It has a title 'User Login' in bold. Below the title, there are two input fields: 'USERNAME' with a placeholder 'Enter admin username' and 'PASSWORD' with a placeholder '*****'. Below these fields is a blue 'Login' button.

User Login

USERNAME
Enter admin username

PASSWORD

Login

- Open a web browser and navigate to <http://localhost:5173>
- Input the authorized administrative Username and Password into the credentials fields and click Login.
- Upon validation, the back-end generates a secure token, allows application access, and redirects the user to the administration portal.

- Choose the main Company, Shop Name, define category and link the location ID.
- View the Agreement ID select the targeted Property Name and select the contract duration dates using the Agreement Starts or Agreement Ends On calendar filters. Define the Minimum STO Level in LKR.
- Choose the Payment Method and Deposit Type. Input the Bank Deposit baseline value in LKR and set its Expiry Date.
- Choose the Payment Method and Deposit Type. Input the Bank Deposit baseline value in LKR and set its Expiry Date.

- Choose the Rental Type , define the Monthly Amount in LKR and enter the Confee Rate% value.
- Locate the target record in the ledger table, click the blue edit icon, modify fields or change operational Status, and click green Save.
- Click the red delete trash icon next to the row and confirm the browser alert pop-up to clear the entry from the database ecosystem.

2.6 Property Management Page

The screenshot displays the 'AIRPORT PROPERTY MANAGEMENT SYSTEM' interface. The top navigation bar includes links for Home, Sales, Company, Shop, Agreement, **Property**, Reporting, and Settings, along with a 'Sign Out' button. The main content area is titled 'PROPERTY PROFILE' and includes a sub-header 'Manage airport real estate and locations'. It features two main sections: 'SPATIAL METRICS' and 'STATUS & LAYOUT'. The 'SPATIAL METRICS' section contains input fields for 'Property Name / No' (with a placeholder 'Eg: Terminal 1 - Shop A'), 'Area (Sqft)' (with a placeholder 'Eg: 1200'), and 'Location ID' (with a placeholder 'Eg: LDC-099'). The 'STATUS & LAYOUT' section includes a 'Leased Status' dropdown menu (set to 'No (Available)'), a 'Proposed Property' text input field (with a placeholder 'Proposed alternate use'), and a 'Chart Color' selection (set to '#000000'). Below these sections is the 'AIRPORT PROPERTY REGISTRY' table, which lists property records with columns for Property Name, Area (Sqft), Location ID, Leased status, Proposed Property, Color, and Actions. The table shows two records: 'Proposed Pier C - Premium Lounge 02' (Leased) and 'Cargo Village Warehouse Space 08' (Available). The 'Actions' column for each record contains a blue edit icon and a red delete trash icon.

PROPERTY NAME	AREA (SQFT)	LOCATION ID	LEASED	PROPOSED PROPERTY	COLOR	ACTIONS
Proposed Pier C - Premium Lounge 02	3,400	LDC-T2-LM002	Leased	Future Development Area for Airline First-Class Lounge	#000000	[Edit] [Delete]
Cargo Village Warehouse Space 08	5,000	LDC-CARGO-008	Available	Air Cargo Complex Logistics & Storage Space	#773222	[Edit] [Delete]

- Under the spatial metrics enter the Property Name/No, input Total Area Square footage inside Area and specify the unique Location ID
- Under the status and layout set the Leased Status drop down. Input any Proposed Property future development text notes and choose a unique Chart Color identification block.
- Click Add Property to submit to the database registry.
- Locate the target record in the ledger table, click the blue edit icon, modify fields or change operational Status, and click green Save.
- Click the red delete trash icon next to the row and confirm the browser alert pop-up to clear the entry from the database ecosystem.

- Pick a calendar date context and click View Daily to query individual daily sales streams.
- Choose a target monthly timeline filter and click View Monthly.
- Pick a specific shop using the Choose Shop ID menu picker set the month tracker and click View Shop-wise Monthly.
- Click the red PDF icon button to automatically bundle data grids into printable document layouts.
- Click the green EXCEL icon button to export compiled tabular data matrices into downloadable spreadsheet sheets.

3. System Troubleshooting

3.1 “Username is incorrect!” or “Password is incorrect!”

- Ensure the keyboard Caps Lock feature is inactive. Check for accidental white space prefixes or suffixes and retype credentials carefully.
